Control and Power

What is the meaning of having control over one's own destiny? What is the meaning of independence?

Will Durant in his voluminous writings about civilization for the past 5000 years paints a picture that describes the nations like wild animals in the jungle. If there was any humanity in the relationship of individuals, such humanity and morals were
entirely missing in the relationship of the
nations to each other.

Thus from the earliest
stages of recorded history
until today. In one form or another, such is the drama unfolding itself before one's eyes on the stage of the world.

Once a nation becomes independent and gains power, it abuses and enslaves all weaker groups.
This is true with certain exceptions in the Western democracies, and the State of Israel. All propaganda devices are used to deceive the culprits. When ever propaganda fails, then imprisonment, torture and death are used to quieten the opposition.

It is under such circumstances that the Jews who have always been considered an outsider, and at best a second class citizen,
decided to gain independence and have a nation of his own, in order not to be at the mercy of this "Civilized World," especially after this "Civilization." Is it any small wonder that this tiny minority of exploiters of mankind should look any more...

The Talmud and Rabbinic writings are classic examples of everlasting differences of opinion coexisting as different manifestations of divine truth. By influencing the Jewish who study, the Talmud and the Talmudic literature became the foundation not only of the Jewish people as a whole but also for any of the Jewish people who wished to study.

Antisemitism has the same effect on the antisemites as the cancer cells do for themselves. In both cases, they are self-destructive. When the patient dies, the cancer cells likewise die. Jewish genius in every field of culture and science. Jewish Refugees from Germany developed the Theory and practice of the atomic bomb. Because a country is a democracy does not mean that the cancer of anti-Semitism does not exist. In fact the freedom given in a democracy
enables this venom to spread under the pretense of free speech.

Hitler's hate and lies were spread under the Weimar Republic—a democracy. Hitler was democratically elected by the German people. When Germany was a Monarchy, Jews were protected in every civilization. Manifestation was a
Achieving prosperity for all requires a perspective that recognizes the benefits of trade and cooperative engagement. Development and economic growth are intertwined, with a focus on macroeconomic strategy to ensure balanced growth and stability. Countries may encourage democratic processes and rule of law that promote a sense of community and stability. When such conditions are met, the potential for innovation and prosperity is maximized. It is important to foster a culture of entrepreneurship and teamwork, while also ensuring that the benefits of economic progress are distributed fairly. The role of government is crucial in creating an enabling environment for businesses to thrive. Additionally, investments in education and healthcare are essential for long-term economic development and social progress.
From this vantage point, all thinking people must feel that our leaders need to keep the front in our minds.

Hitlers death was the result of many, some being quite ordinary. Yet, the need for peace and freedom to the world needs to be understood. As Nelson Mandela said, freedom of people is a necessity of the human mind.
My future friends, I must distinguish you from my present friends. I am in a political position of importance. The government who take an interest in me, understand me, and the party, you have given me your friendship, and now I am not convinced of it. My future friends, I must distinguish you from my present friends.
Jewish lives. The lesson of the Second World War is that Jewish fear of arousing anti-Semitism was equally responsible for the paralysis of the Allies to save thousands of Jews from the Nazi hordes. Would they have opposed the paralysis to the public, thousands of Jews could have been saved.
In fact, if Jews do not organize and lobby for their rights they aggressively, they are responsible for any debacle that happens. Anti-Semitism, a hereditary characteristic of Jewish people, paralyzes the spread of their venom. Freedom of speech is an inherent right. Let Jews use this right to defend themselves and outmaneuver all the haters and those who intend to defeat democracy.
This is necessary to do. One of them is to devote a preponderantly Jewish genius for Jewish causes. The Jewish people and the hand of Israel. At least we will not be giving cause to antisemites of competing with them and to figger the animosity of jealousy.

Another lesson is that Christian Jews should consult Talmudic sources for standards of behavior and ethics. Non-Jewish Jews should learn proper responses from our 3400 year Torah. Non-Jewish institutions and cultures were not formulated to nor developed to enable Jewish survival. They are wonderful for those Non-Jews who developed their culture for their own survival.
Our 3,400 year Torah is specially written and developed for the Jewish Odyssey through our history. Its pages of the written and oral law as summarized in the Shulchan Aruch are to be consulted for guidance on all problems. It is in this sense that the above official question by the Jewish claim and
