Thilim Psalms. Does
Prayer really help? Yes
and no . Enigma :Free
will granted by God to
satanic man who will

destroy the weak.

Where is God?

vis -a-vis God's rescue
of the victims ?????

Yes and no .

No one can depend
that God will come to
the rescue. One must
prepare for the

contingency that God will not come to the rescue. Why ? This is part of the mystery of God. No one ever knew God's ways. Yes, God exists God has the power to intervene. However no one ever

knew what God would
elect to do.

COMMENTARY

Individuals who deny
their Divine historical
roots -Torah Written
and Oral from Sinai

3400 years ago have
no future or rights

no Today

no Tomorrow.

Every honest person
must destroy any form
of recognition to
Unesco that grants
them any authority.

UNESCO passed a resolution denying Jews a historical link to Jerusalem – They denied the existence of 4000 years of History . They Denied 4000 years of Jewish residence in the Holy

land. They Denied the existence of Solomon's Holy Temple 3000 years ago even though there exists proof from the Bible historical sources and archeology . They Denied the existence

of the Second Temple
They denied the
existence what
Muslims themselves
admitted that the
Mosques on the Temple
Mount are the
continuation of the
Jewish Temples that

stood on that site. That
is carved on the walls
of a mosque a few
miles from Jerusalem .
Israel must respond by
annexing the entire
Yehudah and Shomron.
The hell with the Arabs
The HELL WITH those

Europeans who will
holler and complain.
Those who can't bite
holler and threaten .
No one will do any
thing . Not one
European will risk their
life for the Palestinians.
Tehilim Chapter 15:1

Mizmor Ledovid....

King David expressed his praise and recognition for the source of all life-God.

Commentary . Prayer in essence has multiple purposes.[1]a human being the embodiment

of miracle of miracles-
voices his thanks to
God for the miracle of
life-birth and
survival[2] Prayer is
also an opportunity to
beg our Father in
heaven for his help that
our endeavors be

successful. Man must
do must act must
advocate. God will not
do it for him /her. God
will assist. There exists
an enigma about the
relationship between
man and God . In a
universe created by

God free will is God's gift to man. Man can use his free will to be the copy of God in his /her behavior toward other humans and animals. Or man can elect to be the

anti-god. Man has the power to destroy the world –with atomic and non conventional weapons. What happens when man turns into Satan.² God certainly has the power to over power such

Satanic man. However not always does God intervene. The holocaust when 6 million Jews and 1 million Jewish children were exterminated by the Nazis with the blessing of all the

Europeans and the
Roosevelt
administration is a
prime example of God's
decision not to
interfere with the free
will of the Satanic Nazis
and Europeans.

The defeat of the Nazis and the resurrection of the State of Israel after 2000 years and the survival the last 67 years of Israel is an example that the Providence of God

exists and does
intervene for His
children.

However, the ways of
God remain an enigma.
Man in order to survive
must be the actor and
active force . One must
behave that one is on

his own. One can never
factor in Divine help.

No one today knows
when God will decide
to intervene.

Prayer to God is a duty
dictated by Halacha.

We pray because we
must . We can not for

one moment relax our own efforts to solve our own problems.

With such an ideology one will not lose faith when God forbid God does not come to the rescue. One must plan what one will do in the

contingency God does
not come to the rescue.
